

The Foundations School Admissions Statements

General Admissions Statement

We are a not-for-profit private school serving students in kindergarten through third grade. We prioritize the foundations of learning: curriculum engagement, social emotional well-being, creative practice, reading proficiency and academic achievement. Individualized learning goals are created for students based on diagnostic assessments.

We are "need aware" regarding prospective students. Financial needs, as well as academic needs, are considered in the enrollment process.

- We accept students on a first-apply, first accepted basis.
- We use a waitlist and applicant pool when we have more applicants than available classroom placement.

Need-Aware Financial Aid

- The Foundations School is "need-aware" or "need-sensitive," with policies that allow us to meet the full need of all admitted students who qualify for financial aid.
- Financial aid to help defer the cost of tuition is based on The Foundations School sliding scale which is benchmarked to Federal definitions of poverty.

Application Process

1. **ONLINE**; Enroll Me is the online application place to start. Families receive application status update at every point below:
